TAANZ Delighted By NTIA Momentum

The nominations for the 2016 TAANZ National Travel Industry awards (NTIAs) are out, and tickets have gone on sale for the Sep event—and TAANZ boss Andrew Olsen says he's delighted the momentum the event is generating.

This year's Sep awards ceremony will be the third under the TAANZ NTIA format and Olsen says the organisers have listened to the trade feedback and will continue to make tweaks to ensure the 'industry celebration and night of nights is here to stay'.

While some of the retail rebranding

may have initially stalled nominations, Olsen says this year's event has generated more interest and more nomination. "It's great stuff really and it shows the trade is right behind the event—we've got Emirates and Etihad on board as sponsors this year as well as Qantas and American Airlines and some of the cruise lines. We have now got a full book," says Olsen.

There are an expanded number of categories this year, and Olsen says there has been 'great interest' in the rookie of the year category. A number of finalists are back this year, and some are competing to uphold their titles, adds Olsen.

In response to feedback there is now just two weeks between when the nominations are announced and voting commences so the TAANZ boss says nominees should start campaigning, and urges all those in the trade to vote for their preferred choices once voting officially opens 26 Apr. For a full list of the nominees [CLICK HERE](#).

... Tickets

Tickets for the 2016 TAANZ NTIA event (10 Sep) are now on sale. Tickets are \$125pp or \$1250 plus GST per table of 10. See taanz.org.nz for details.

Joyce: JQ Looking Up

Qantas chief executive Alan Joyce is in New Zealand on a two-day visit to meet with the carrier's staff and industry stakeholders—and has been talking up Jetstar's regional services. The QF Group boss says it's been a steep learning curve for those in JQ's regional business but that its regional services are now operating well ahead of expectations.

JQ's regional flights operated at 100% on time performance (OTP) yesterday and he says in the past two weeks JQ's regional flights achieved 80% OTP and more than 80% passenger loads.

For pictures from last night's industry event with the QF boss in Auckland, see p 6.

'Mega' US Fam Response

Entries to the Air NZ/Brand USA MegaFam have closed and the carrier is 'really impressed' at the level of support from the trade. More than 1600 entries were generated during the incentive period and NZ's Thomas Gentz says from the itineraries he's seen the agents will have an 'amazing' time in the US. The winning agents will be announced 26 Apr.

QF's Family Friendly Points Move

Qantas has recently ramped up its loyalty focus in the New Zealand market, and has today launched a new initiative to help its Frequent Flyer members keep their status while on parental leave.

The new Status Hold initiative, launched today, lets eligible QF Silver, Gold and Platinum Frequent Flyers keep their status for up to 18 months, even if they are not earning the number of Status Credits usually required to retain that tier. These members will also continue to enjoy their existing tier benefits, which may include lounge access, bonus points offers and preferred seating options.

... Family Transfer

QF has also increased its Family Transfer points limit and removed the restriction on the number of transfers. QF Frequent Flyer members can now make an unlimited number of transfers to eligible family members up to 600,000 Qantas Points each year, compared to 400,000 previously. The move is in response to member feedback, and is designed to recognise the loyalty of its customers. For more

MSC Announces New Ships

MSC Cruises is planning to build up to four 'world class' cruise ships—and the cruise line says it is the first global cruise brand to develop an investment plan of this length and magnitude, which totals nearly EUR9 billion.

From 2014 through to 2026, MSC is planning to build a total of eleven next-generation ships, and the first of the four ships announced overnight is due to be delivered in 2022

MSC Cruises executive chairman Pier-

francesco Vago says the MSC Cruise World Class prototype 'will feature a record-breaking, futuristically-conceived design that will make the ship a truly unique place to be at sea, whilst maximizing the open air space available to guests'.

"Our long-standing focus on innovation will make the new prototype quite unlike anything currently existing in the cruise industry," he says. "It will be: the richest in amenities and features for all guests, including families; cutting edge in design; feature the latest and best state-of-the-art smart technology at sea as well as use the most-advanced environmentally-friendly technology available. Moreover, it will be a ship for all seasons and for all regions." See upcoming issues for more World Class ship details.

Caribbean adventures

Royal Caribbean has released its 2017-18 schedules with a collection of year-round short and seven-night itineraries to 20 of what the company believes are the most popular island destinations in the Caribbean.

Highlighted ports of call include Belize City, with opportunities for hiking in the rainforest, cave and river tubing and Mayan ruins; CocoCay in the Bahamas, a 140-acre island for exclusive use of RC guests offering environmentally friendly activities and nature tours; and St George's in Grenada, with tours of a local rum distillery and spice estate.

All In Harmony

The first in a new generation of Royal Caribbean's Oasis-class ships, the Harmony of the Seas will sail its first Northern summer season to the Caribbean. Oasis class ships combine architectural innovation with breakthrough technologies, of the Quantum-class says the cruise company.

Venice-Greece Deal

GO Holidays has released new value-add offers on a 12-night cruise ex Venice through Croatia to the Greek Island to Athens aboard the Riviera, and departing Venice 31 Aug.

Cruise fares are priced from \$4369pp share twin for sales to 31 May (unless sold out) and include free unlimited internet plus the choice of either, a four free shore excursion, a free house beverage package or a USD400 shipboard credit. Contact GO Holidays for details.

RC's Adventure Update

Following multimillion dollar revitalisations this year, Royal Caribbean's Adventure of the Seas will sail from Puerto Rico on seven-night itineraries. The company believes the vessel's ports of call cover the most sort-after southern Caribbean islands. Meanwhile, Liberty of the Seas, also undergoing extensive and expensive revitalisation, will remain in Galveston for 2017 as the state's biggest ship and offer a variety of schedules to the western Caribbean.

Hurtigruten Ships Refurbished

Hurtigruten's Kong Harald and Polarlys ships have completed an extensive refurbishment, part of wider plans to upgrade four of the line's 11 Norwegian Coastal ships and add a new expedition ship, the Spitsbergen. The upgraded ships feature a 'new Arctic interior' look with modern Scandinavian elements; and their restaurants now serve a new Coastal Kitchen concept emphasising locally sourced, seasonal ingredients. The bar has been moved to the panoramic lounge so guests can enjoy the view with their cocktails. The makeovers of the Nordkapp and Nordnorge will be completed this Apr and Nov, respectively, says local rep Discover the World. Meanwhile a reconstruction of the Spitsbergen is nearly complete to make it suitable for polar waters, including upgrading cabins, suites and public spaces. The ship will join the Norwegian Coastal Voyage route later this spring and replaces the Midnatsol, which will join the Fram in Antarctica for the 2016/17 season.

AVALON IMAGERY II CHRISTENING

Kiwis Sail into the Alsace with Avalon Waterways

Avalon Waterways took its launch celebrations into the French region of Alsace last week with dozens of New Zealand guests helping to mark the christening of its brand new ship Avalon Imagery II.

Having sailed up the Rhine from a launch ceremony in the German town of Engers, the group cruised onwards into France to explore the spectacular city of Strasbourg and the postcard-perfect town of Colmar,

both brimming with colourful medieval buildings and canals.

They were joined by broadcaster Judy Bailey, who had christened the Avalon Imagery II in an event dedicated especially to the New Zealand market.

Easy GC Car Rental

Clients looking to hire a car or campervan whilst visiting the Gold Coast will be happy to hear that Jucy has recently opened a branch at Gold Coast's airport. Jucy sales executive Kirsty Malone says prior to this, clients were having to travel to Brisbane to pick up their hire car or campervan, but now that the Gold Coast branch is open, it gives clients further options. "We've been consistently sold out since we opened; we are having to move more fleet into the new Gold Coast branch," she says. Malone added that agents should encourage clients to book in advance to ensure they can secure a good vehicle at a good price.

In a first for Australia, Jucy is set to introduce a Casa Plus motorhome to its fleet in Sep. It will be the first motorhome Jucy has ever offered in Australia and will accommodate six people. See jucyworld.com for more.

Hands-on LON Maritime

Above and Beyond is a hands-on experience at London's National Maritime Museum with retrospective and forward-thinking views on the innovation and science behind flight. The exhibition is in collaboration with NASA and has interactive experiences using flight simulation, augmented and virtual reality including a simulated space elevator ride. The exhibition will also span Boeing's centennial date, 15 Jul. Entry is free.

MEL's Floating Park

Plans have been unveiled to develop a 2000m² public park in the sky in the Melbourne CBD. Floating above Collins St, the Melbourne Skypark will offer a space to be enjoyed by local workers as well as the general public, similar to New York's High Line park. It's scheduled to open in 2018, and will feature a signature restaurant as well as 'idyllic spaces' from which to enjoy the city skyline. See melbournequarter.com

Explore The World's Longest Train Tunnel

After 17 years of construction the longest train tunnel in the world will open in—or under—Switzerland on 11 Dec, and for a limited time it's offering guided tours to visitors.

From 02 Aug, passengers can make the 57km trip between Erstfeld and Bodio on special excursions that include disembarkation 800m below the surface at the multifunction station in Sedrun, where a guided a tour will demonstrate the dimensions of the gigantic tunnel system.

Once regular services start with trains travelling through the Gotthard Base Tunnel at high speed, a stop in the middle of the tunnel will no longer be possible. However the new north-south connection means passengers will be able to cross the Alps in only 20 minutes. For those who like a scenic, slower journey the existing historic Gotthard route will remain in service.

The special Gottardino train schedule

only runs until 27 Nov and the number of tickets is limited. Cost is from CHF79. The journey includes travelling via the new tunnel in one direction and the historical mountain route in the other. Passengers should be more than six years old, in good health and are only allowed one piece of luggage. Details, swisstravelsystem.com

Kitty At Universal

Visitors can now meet Hello Kitty herself, as well as spend lots of money on a huge range of her merchandise, at the new Hello Kitty Shop featuring Hello Kitty and Friends at Universal Orlando Resort.

The store is divided into four sections—Hello Kitty Town, where guests can 'find products from some of her famous friends'; Hello Kitty Sweet Yummy Shop, full of Hello Kitty merchandise and sweet treats; Hello Kitty Lounge, with lounging merchandise; and Hello Kitty at the Movies, showcasing Hello Kitty with a classic movie theatre backdrop.
